included Rs. 10 crore for Rural Water Supply, Rs. 8.60 crore for Emergency Feeding and Rs. 2.00 crore for Mobile Health Units.

The review of schemes in the KBK districts is a continuous process and is carried out along with the review of existing policies so that the region can be pulled out of the vortex of poverty and put on the path of economic development.

Recurring droughts and weak administration resulting *in* slow implementation of schemes, besides certain policies of the State Government are among the reasons for the continued affliction of these areas with abject poverty. Efforts are being made to mitigate the endemic poverty of this region through a four-pronged approach: (i) Drought—proofing through watershed development, afforestation and extension of irrigation facilities; (ii) Emergency feeding and provision of health facilities through mobile health units; (iii) A more responsive administration, and (iv) A change in some of the policies of the State Government related to non-timber forest produce (NTFP), land acquisition, restoration of alienated land and autonomy to village Panchayats in financial matters.
